Useful Apps in CYC App Store

Name	Icon	Recommend	Subjects	Applications
Book Creator for iPad		English	Applicable to ALL Subjects	<p>iBook making</p> <p>Book Creator for iPad is an app that allows you to place text, videos, audio and images in a book layout, which can be exported to read in iBooks.</p> <p>Ideal for student's picture books, photo books, art books, cook books, manuals, textbooks, and the list goes on.</p>
Popplet		English	Applicable to ALL Subjects	<p>Used as a mind-map, Popplet helps students think and learn visually. Students can capture facts, thoughts, and images and learn to create relationships between them.</p> <ul style="list-style-type: none"> o Story Mapping o Time Lines o Sequencing and Ordering o Mind Mapping o Brainstorming
Grafio 3 – Diagram & Ideas		Computer	Applicable to ALL Subjects	<p>Draw mind map, flowchart and timeline</p> <p>Students can brainstorm the ideas and use theme word/ photo/ video to construct the mind map.</p>
Explain Everything Classic		Geography	Applicable to ALL Subjects	<p>Interactive screencasting whiteboard</p> <p>Students can create a series of slides for presentation. This app allow user to insert text/photo/video/sound/web browser/equation and record audio/video.</p>

Schoology		Geography	Applicable to ALL Subjects	<ol style="list-style-type: none"> 1. Prepare teaching material <p>Student can preview the lesson content and know when will be the next homework</p> <ol style="list-style-type: none"> 2. Create and submit homework <p>Teacher can give student homework and student can do the homework online.</p> <ol style="list-style-type: none"> 3. Perform assessment <p>Teachers can get the result of students' homework.</p>
GeoGebra		Mathematics	Mathematics	<p>Geometry and calculus tool</p> <p>Teachers can ask student to input function/data to see the graph of that function.</p> <p>Students can draw the geometry to get the information about it such as coordinate of the vertex and angle.</p>
WolframAlpha		Mathematics	Mathematics	<ol style="list-style-type: none"> 1. Answer engine <p>This app can compute secondary level mathematical question, and give the step-by-step answer (not all of the question).</p> <ol style="list-style-type: none"> 2. Plotting graph <p>Users can input the function into the app and get the information about it such as graph, solution and derivative.</p>
Photomath – Camera Calculator		Mathematics	Mathematics	<ol style="list-style-type: none"> 1. Use camera to photograph the written equation and get the answer <p>Students can write down an equation and use this app to solve it.</p> <ol style="list-style-type: none"> 2. Input equation and use this app to solve it. Only basic calculation can be solved.
Circuit Builder		Integrated Science	Integrated Science, Physics	<p>Construct electric circuit and Measure the voltage, current and resistor of different segments.</p> <p>Student can construct any circuit they want to see whether this circuit works normally. Moreover, they can measure the physics quantities in any segments.</p>
Current & Charge		Integrated Science	Integrated Science, Physics	<p>Tutorials for electricity</p> <p>This app has eight activities designed for student to learn electricity step by step. Each activity has question to test student's understanding.</p>

Super Duper Storymaker		English	Applicable to ALL Subjects	Create story and Tell story Users can make their story books, photo albums, and comic books. After that, they can record their sound on each page to do a presentation.
GoodNotes 4 – Notes & PDF		Mathematics	Applicable to ALL Subjects	Take notes Students can download the teaching material (pdf format) by using OneDrive and add text, image and drawing in it.
Ohm's Law		Integrated Science	Integrated Science and Physics	Tutorials for Ohm's Law This app includes four activities that introduce the relationship between voltage, current, and the internal resistance of devices. Moreover, students can use voltmeters and ammeters to measure the potential difference and current respectively.
Plickers		Chinese History	Applicable to ALL Subjects	Collect answers of multiple choice questions Teachers can use iPad to collect student's answers and the application will generate the statistical report instantly.
Kahoot		History	Applicable to ALL Subjects	Game-based learning platform Teachers can create a multiple choice quiz and students will compete with their classmates to answer the questions correctly and quickly.
Nearpod		History	Applicable to ALL Subjects	1. Create interactive Teaching material Teachers can import powerpoint into this app as teaching material. After that, teachers can add some interactive activities such as Quiz, Polling, Drawing and Video in the teaching material. 2. Interactive lesson Teachers can project specific slide onto the screen of student's iPad.

EduVenture X		Geography	Applicable to ALL Subjects (For outdoor activities)	<p>Integrated GPS-location based learning system</p> <p>Teachers can create various missions in different location. When students arrive the specified place, they need to use iPad to complete the missions. The missions include taking picture, recording audio and answering question.</p> <p>Teachers can get students' answers immediately in their iPads.</p>
China Real-Time Weather		Geography	Geography	<p>Explore local and national weather conditions.</p> <p>Users can check the real-time temperature, precipitation and wind condition of Chinese provinces.</p>
Prisma		Visual Arts	Visual Arts	<p>Create your artworks</p> <p>This app transforms users' photos into artworks using the styles of famous artists.</p>
PicsArt		Visual Arts	Visual Arts	<p>1. Picture editor</p> <p>Users can remix pictures into awesome collages and memes. Moreover, users can add text, sticker, frame and drawing etc. on the picture.</p> <p>2. Create your artworks</p> <p>Users can add filter on the picture to make it become an artwork.</p>
My Cartoon		Visual Arts	Visual Arts	<p>Make your photo and video as fun Cartoon and Comic.</p> <p>Users can use filters when they take picture or record video.</p>
